DAHLIADEL INTRODUCTIONS

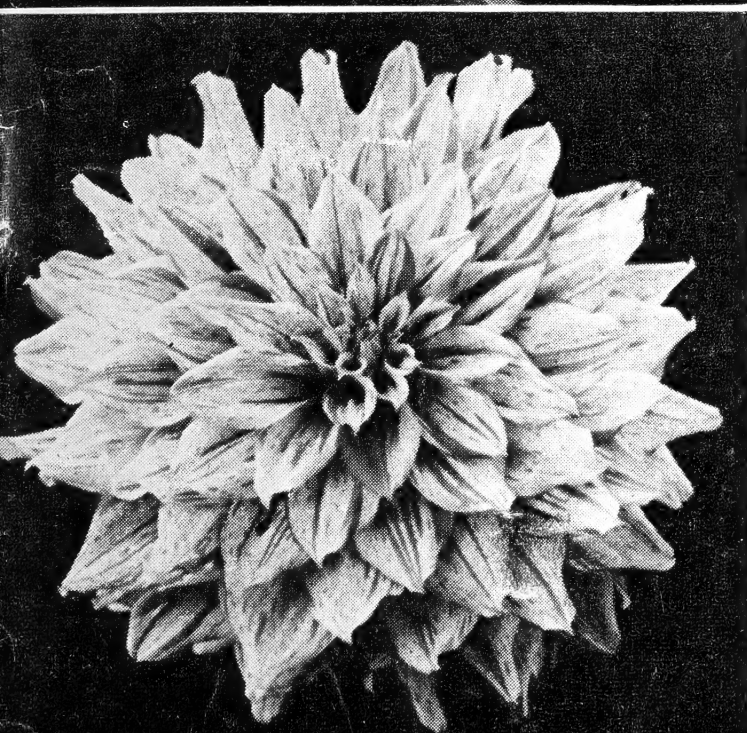

PRINCE BEAUTIFUL

PRINCE BEAUTIFUL (Johnson-Dahlia 85A-B), ID, Bloom 8-9x5, Bush 3 ft. A sport of Golden Prince produced by chemical treatment. Increasing the chromosomes has changed the color from gold suffused peach to a soft rose pink shading to cream at the center with distinct golden yellow stripes and markings of different widths running lengthwise on the petals. It is truly a beautiful and unusual variegated that should go places as an Informal variegated on the show table. It has all the good habits of Golden Prince. A healthy, early bloomer, with nice centers and good stems to the end of the season. There is one interesting feature to this lovely creation. It is not absolutely fixed and probably never will be. Some flowers will revert to Golden Prince. A whole bush may even decide to be just Golden Prince this year, then Prince Beautiful next. Prince Beautiful is suitable for landscaping, use as a cut flower or on the show table. Won the American Home Achievement Medal at Burholme. We are going to introduce this novelty only in lots of three so you may be assured of having Prince Beautiful.

On Dudley's Honor Roll.

CHEER

CHEER (Dahlia 85B), ID, Bloom 8x5, Bush 5 ft. Bi-color and Variegated Dahlias are attracting a great deal of attention lately thanks to our friend Lynn B. Dudley who has been rooting for Bi-colors for a number of years. What can give more Cheer than a rich lemon yellow splashed and striped bright scarlet. On long erect stems. Fine for cutting and a dahlia that does well with just ordinary culture. The bloom pictured was photographed October 20th, showing its ability to hold a full center throughout the season. Very striking.

On Dudley's Honor Roll.

SMALL VARIETIES

DAHLIADEL 1947 INTRODUCTIONS

MISS PLUMB (Beaver-Dahliadel 85M), **M FD**, Bloom 2 x 1½, Bush 2 ft. Miniatures in purple are very rare, so we feel this dainty one will become very popular, as it is a bright rhodamine purple shading lighter at the base of the petals. Blooms are small, but full centered. A fine grower, with strong slender stems. Certified at W. Va. On all three Honor Rolls.

Root, \$3.00 NET; Pot Root, \$2.25 NET; Plant, \$1.50

BABY SEA FOAM (Dahliadel 85M), **M ID**, Bloom 2½ x 2, Bush 2½ ft. This darling Miniature grows small naturally and branches readily. Produces fine flowers on good stems for cutting from early until the end of the season. It has an abundance of petals which are serrated, and the fernlike foliage adds much to its attractiveness. Color, a blush pink with a white center. A dainty variety giving you a profusion of blooms. On Dudley's Honor Roll.

Root, \$3.00 NET; Pot Root, \$2.25 NET; Plant, \$1.50

MORNING GLOW (Dahliadel 85), **S. Bloom 4**, Bush 3 ft. We have been looking for a real good pink Single for some time, and this most pleasing pink is destined to win many friends. It is a bright amaranth pink or violet rose with a spot of scarlet at the base of each petal resembling a Halo effect, against the yellow center. It is a fine grower with strong stems. An early bloomer that keeps well for cutting.

Root, \$3.00; Pot Root, \$2.25; Plant, \$1.50

SNOW BABY (Dahliadel 85M), **M FD**, Bloom 3 x 2, Bush 4 ft. A really worthwhile Miniature similar in form to Snow. A slight cast of lavender at the center shows on the very first blooms, and then they are a pure white the rest of the season. Blooms are of perfect form, on long slender stems. There are just multitudes of flowers and the picture taken Oct. 20 shows the center formation at the end of the season. A wonderful Miniature for exhibiting, cutting for the home, or as a commercial cut flower. Also a fine root maker. Certified at W. Va., Storrs, and O.V.D.A. (A contender for the Derrill Hart Memorial Award, losing to Fuschia Gem.) On Dudley's Honor Roll.

Root, \$5.00 NET; Pot Root, \$3.75 NET; Plant, \$2.50

GREATER GLORY SPORT (Dahliadel 85A), **SC**, Bloom 11 x 5, Bush 5 ft. We have been growing this sport since 1940. It is a brighter and deeper pink and a stronger grower than Greater Glory. DAHLIADEL 1947 INTRODUCTION

NICKIE (Dahliadel 85M), StC, Bloom 4-5 x 3, Bush 1½ ft. This little dahlia was named by our younger daughter for her popular girl friend with this tricky nickname. It is a lovely Cactus, perfect in form. Truly dwarf with bushes 18 inches high. Blooms keep well on the bushes and hold their perfect form throughout the season.

HARDY GARDEN CHRYSANTHEMUMS

These modern hardy mums are selected for their ability to produce quantities of blooms in general garden conditions. The English mums are most interesting and have done wonderfully well for us. Increasing interest in garden mums is due to recent development of new varieties that bloom safely ahead of frost, while a number of varieties stand the first frost that usually gets the Dahlias. This prolongs the blooming season in your garden by several weeks.

CHRYSANTHEMUM CULTURE

Culture is simple. Plant them in ordinary garden soil, 8-10 inches apart in rows, 15 inches apart for mass planting, giving them lots of water, and fertilize with a complete fertilizer once or twice during the growing season. For the black aphid, their worst pest, use a pyrethrum nicotine spray, the same as recommended for dahlias. A protection of muslin, burlap, or even paper the first frosty nights will prevent frost settling in open flowers and keep a bright spot in your garden.
